

WHAT'S NEW AT NUB'S!

WINTER 2005 – 2006

More gladed tree skiing – We are opening three new expert only gladed tree skiing areas similar to the Southern Comfort Glade featuring natural terrain and Mother Nature's finest snow. The Tower Glades are accessed from the Ramblewood run and require a short hike up to a new peak we have not skied from in the past. This "hike in only" access offers a unique experience as the snow here will be less cut up than on our lift served glades. These improvements increase our slope total to 52 and add another 10 skiable acres to the resort.

Michigan's first Pisten Bully Winch Cat Snow Grooming Machine - In our never ending quest for the best snow possible we have purchased another new snow grooming machine manufactured by Pisten Bully. This machine, the only one of its kind in Michigan, incorporates a winch package that allows us to groom up and down the steep expert runs at Nub's with greater control leaving the best snow surface possible. It also allows us to groom the Midwest's only superpipe with a level of control not found anywhere in the Midwest.

More Snowmaking Power - Continuing our tradition of the "***Midwest's Best Snow!***" we once again expanded our world class snowmaking system. 4 additional Nub's Nob snowmaking guns were built this summer bringing our total gun count to 227. This system, in the hands of the Midwest's most experienced snowmaking and grooming team, allowed us to open up with more slopes last season and stay 100% open longer than any other lower Michigan area.

Need internet access while at Nub's? Our day lodge building is now a free WiFi hot spot! – For those of you who can't spend all day on the slopes and need to access the internet, you can now do so anywhere in the main lodge building at no charge. Our new wireless network is available anytime we are open as long as your laptop computer has wireless connectivity. Simply select the Nub's Nob Network through your wireless software and the world is at your fingertips.

Nub's Rated Michigan's Best Ski Resort again by the Detroit News! - Thanks to all our skiers and riders, Nub's Nob was voted the number one ski resort AGAIN by the readers of The Detroit News this spring! This was the second time Nub's Nob has captured the top spot, having grabbed the #1 ranking for the first time during the 2003 season.

ON HOLD UNTIL WE HEAR THE RESULTS OF THE SKI MAG SURVEY:

Nub's Rated Midwest's #1 Overall Day Ski Resort eleven years in a row! - Thanks to all our skiers and riders, Nub's Nob was voted the number one day ski resort AGAIN by the readers of SKI Magazine in its October 2004 issue! This was the eleventh year in a row Nub's Nob has captured the top spot, having grabbed the #1 overall title for the first time during the 1993-94 season. Nub's Nob also maintains its distinction as the only Midwest resort ever to capture 2 nationally ranked gold medals as one of North America's top resorts in grooming and family value. Nub's Nob has also been recognized in past issues as the best Midwestern area in grooming, family, snowmaking, lifts, service, food and value.

Previously, SKI Magazine and its readers praised Nub's for its "fanatical passion for making and grooming snow and the attitude that everyone should be treated like a local." They also spoke highly of Nub's "honest" snow reporting and "superb cafeteria".

Nub's Nob is still the only Midwestern resort to have been ranked nationally in the top 10 resorts in all of North America in any category. Nub's was chosen the 6th best in grooming against every resort in the U.S. and Canada according to past annual reader surveys of 10,000 SKI subscribers.
